Message from the Registrar and Director Administration

Dear Students,

As we continue to strive toward excellence in education, I want to share some thoughts and updates that are timely and important for all of you.

The world around us is evolving at a rapid pace, with new technologies, tools, and ideas emerging constantly.

As students in this institution, you have a privileged position—access to knowledge, mentors, and a supportive environment. Use that advantage. Be curious, ask questions, experiment, and don't fear failure. Some of your greatest learning moments will come from the risks you take.

As members of this institution, we expect you to uphold principles of integrity, respect, responsibility, and inclusiveness in all your pursuits — in academics, in campus life, and in your interactions with peers, staff, and faculty. You are ambassadors of this institution's reputation.

At the same time, do not hesitate to approach us: your feedback is invaluable. Your challenges are our priority. Your suggestions may lead to transformative change.

A Word of Encouragement

The journey you are on is not always smooth. You will face challenges, doubts, and moments of fatigue. At those times, remember why you chose this path, lean on your peers and mentors, and keep moving forward. Success is rarely linear—but perseverance and integrity always count.

With warm regards & best wishes,

Prof. (Dr.) Vaibhav Jain

Registrar & Director (Administration)

Message from the Head of Department - BBA

Dear Readers

As we stride ahead in this ever-evolving world, it is important for each of us to be future-ready—not just by acquiring academic knowledge but by nurturing skills, creativity, and a growth mind set. The Department of BBA at ABESIT is committed to shaping students into confident professionals who can adapt, innovate, and lead in a competitive global environment.

Academic excellence forms the foundation of success, but true growth comes when we step beyond the classroom. We encourage our students to actively engage in extra-curricular and co-curricular activities, which foster teamwork, leadership, and communication—skills essential for personal and professional success.

In today's dynamic economy, opportunities do not always come knocking; they are created by those who dare to think differently. I urge every student to explore entrepreneurship and start-up ventures. Your innovative ideas can become the solutions the world needs. Remember, every great enterprise began with a single step of courage and curiosity.

Equally important is continuous up-skilling learning new technologies, improving communication, and staying updated with industry trends. Lifelong learning is the bridge between your potential and your success.

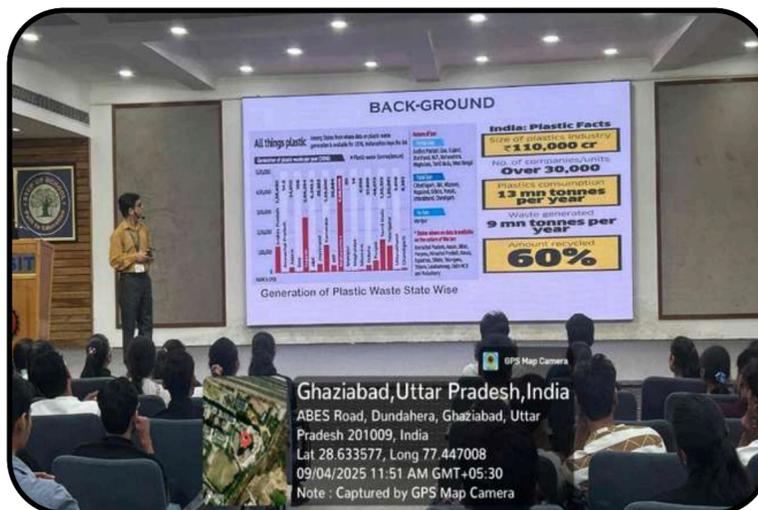

Together, let us foster a positive spirit and proactive mindset that drives growth and success. Optimism fuels energy, persistence, and purpose. When you believe in yourself and stay open to growth, the path ahead becomes not only easier but also more fulfilling.

With regards,

*(Prof.) Dr. Meenu Baliyaan
Head of Department, BBA
ABES Institute of Technology,
Ghaziabad*
